

Stand ST 300

Vega's ST 300 is a video wall stand. The stand is suitable for wall mounting, but can also be equipped with a mobile base with four wheels. The main feature is the height adjustment of up to 70 centimetres. The movement is controlled by two synchronous electric motors via a wired remote control. The ST 300 can be optionally equipped with a VESA adapter, allowing larger screens from 98" (249 cm) upwards to be attached. The maximum load capacity of the stand is 300 kg. The stand is suitable for use in large meeting rooms, conference halls and event spaces such as trade fairs and the like.

Specifications:
